IS THE COURSE OFFERED TO ERASMUS STUDENTS	NO		
COURSE WEBSITE (URL)	https://eclass.unipi.gr/courses/OEP463/		

2) LEARNING OUTCOMES

Learning Outcomes

The purpose of the course is to introduce and comprehensively cover all the basic aspects of financial analysis related to real estate. In order to achieve this goal, the teaching of the course will revolve around four main thematic units:

1. Valuation and Risk Management Methods of Individual Direct Investments in Residential and Commercial Real Estate.
2. Financial Analysis (Budgeting) and Financing of Real Estate.
3. Securitization of Real Estate (Securitisation) and Risk Management of Indirect Investment in Real Estate: Real Estate Investment Trust - REITs.
4. Risk Management and Valuation of Real Estate Portfolios (Portfolio Management: Real Estate Stocks and Assets).

The course is expected to help learners develop a proper understanding of modern real estate financing tools and techniques used in Greece and internationally. Having acquired the necessary analytical skills, they will be able to make rational decisions regarding the optimal way to finance and invest in an economic unit in the construction and real estate management sectors.

General Competences

- Adapting to new situations
- Decision-making
- Individual/Independent work
- Critical thinking
- Group/Team work
- Development of free, creative and inductive thinking
- Working in an international environment
